

# -The *New Age* of tuning your Instrument!

**WITTNER - FINETUNE - PEG** Made in Germany  
PATENT

- ⊕ **Very easy, quick, effortless and precise tuning**  
(transmission ratio of 8,5 : 1 compared to an ordinary peg)
- ⊕ **The tapered peg is put in place without glue**  
by simply pressing it into the pegbox just like any ordinary peg
- ⊕ **No wear on peg and peghole**  
(the shaft of the peg does not spin, subsequently there is no friction). Therefore no effort for peg and peghole maintenance
- ⊕ **Self-inhibiting transmission inside the peg**  
the string can not lose tension. No more slipping pegs
- ⊕ **The Finetune-Peg needs not/must not be loosened or tightened in order to tune the instrument**  
It is sufficient to simply turn the head of the **Finetune-Peg** in the desired direction
- ⊕ **Peg made of "high-tech" composite material and light alloy**  
No influence of climate and humidity. Measurements, color and quality are constant

**Moving Parts:** Only the head **A** and the knurled middle section of the shaft **B** rotate when the string is tuned.

**Non Moving Parts:** The smooth parts of the shaft **C** and **D** are set firmly into the pegbox. They don't rotate when tuning the string.

## ⊕ Protection of natural resources

For Violin 4/4-3/4 in two different diameters and for Violin 1/2-1/4  
• Taper 1:30

For Viola in two different diameters  
• Taper 1:30

For Cello 4/4-7/8 in three different diameters and for Cello 1/2-1/4 in two different diameters  
• Taper 1:25
